

Drawer Basics:

There are a lot of options when selecting a drawer for your project. All drawers, however, consist of three basic parts:

- 12 mm Russian Baltic birch wood drawer box
- Premium soft close, under mount slides to open and close the drawer
- Drawer face that attaches to the front of the drawer box

Sizes:

There are of 36 standard drawer sizes, encompassing three standard widths, three depths, and four heights. Custom sizes can also be ordered for a custom cost and a two week lead time. Overall, there are several points to remember when choosing drawer size:

- Inside dimensions of a drawer will always be smaller than exterior dimensions.
- Drawer dimensions refer to the **space requirements** of the drawer, not the actual dimensions of the drawer box:
 - Width equals the required interior width of the section of closet where drawer will be added, not the final dimensions of the drawer box.
 - Depth equals the **minimum panel depth required**, not the actual depth of the drawer which will be less. (NOTE: 20-1/8 inch deep drawers require a minimum 22-inch panel due to the size of the slides which overhang the back, bringing total depth of the drawer unit to 20.562-inches).
- Height refers to height of the drawer face, not the height of the drawer box which will be smaller. (NOTE: The 7-inch height drawer actually has a drawer face that is 7.5-inches, not 7-inches).

Faces:

The face is what determines the appearance of the drawer. We offer a wide selection of drawer faces in both regular and open frame styles to suit any design aesthetic. Open frame means that the center of the face is removed, allowing for glass, or mirror inserts. Drawer faces may be made from thermo-foil, laminate or wood, depending on style chosen. Not every drawer face is available in every color or every size. Five-inch high drawers are never available open face.

Drawer Face Styles

LAMINATE FACES (Laminate faces have edge banded sides that are hard, sharp and crisp in contrast to the softer, eased edge of the thermo-foil drawer styles)

STANDARD FLAT TFL

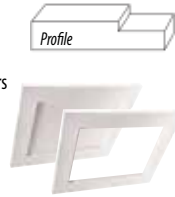

- 1-piece laminate
- Edge banded on 4 sides
- Available in all colors
- The only drawer style available in Ultra High Gloss colors
- Available in all sizes including 5-inch

- Available open frame

Minimum Width			Maximum Width			Recommended Max		
W	x	H	W	x	H	W	x	H
7.4	x	7.4	45	x	94	18	x	48

* **IMPORTANT:** 5-piece laminate drawer faces are not available in the 5-inch height. A coordinating face in either *Contempo* Thermo-foil or *Slab Melamine* should be used. Which face to use depends on color. If the drawer is ordered in white, the coordinating 5-inch face for 5-piece laminate drawer fronts is **Contempo Thermo-foil** in a *Frosty White* color. This is the industry match to the white 5-piece laminate paper. The best match for all other colors in the 5-piece laminate drawer front series will be **Flat Melamine** (flat) ordered in the same color as the rest of the drawers in the order.
